## TECHNOLOGY AWARENESS Programme

ON

DAIRY INSTRUMENTATION  
INTELLIGENT SYSTEMS  
GREEN UV TECHNOLOGIES  
SMART SENSORS  
SOLAR TECHNOLOGIES

**CSIR - Central Electronics Engineering Research  
Institute**

## Welcome

CSIR-CEERI is organising Technology Awareness Programme to showcase following CSIR-CEERI Technologies:

### 1. Dairy Instrumentation

- Handheld Milk Adulteration Detection System
- Milk Fat Analyser
- Acoustic Milk Analyser
- Rapid Milk Analyser

### 2. Intelligent Systems

- Seeds classification
- 3D Endoscope

### 3. Mercury Free Green UV Technologies

- Water Purifier
- Air Purifier

### 4. Smart Sensors

- Gas Sensors & Read out Electronics
- Alcohol Sensor
- LTCC based Micro Hotplate

### 5. Solar Technologies

- Solar Pump Inverter
- IoT enabled Solar Tree

The aim of this programme is to drive R&D innovations in the area of Electronics and Allied Engineering to foster collaborations and artist industry efforts to strengthen their competitiveness in developing state-of-the-art products for the benefit of Society.

It is planned to have technology presentation by inventors and explain the commercial applications for their technologies to the Industry. Scientists will be available for one to one interactions related to the themes and explore opportunities for joint R&D programmes and the adoption of technologies.

## Programme Schedule

### Programme Schedule

Time	Event
02-30 PM	Welcome Address & Introduction by Director
02-45 PM	CSIR-CEERI Promotional Movie
03-00 PM	Technology Presentations
03-30 PM	Industry Introductions
03-45 PM	Technology Demonstrations
04-45 PM	One-to-One Interaction with Industry/Entrepreneurs for Technology Transfer Agreements
